

PSG COLLEGE OF TECHNOLOGY, COIMBATORE-4

DEPARTMENT OF PRODUCTION ENGINEERING

REPORT ON THE LECTURE “FUTURE OF PRODUCTION ENGINEERING”

Dt: 19/09/24

The guest lecture on *"The Future of Production Engineers,"* held on 19th September 2024, featured Mr. Kishore Haree Gopalakrishnan, Systems Engineer at Railistics GmbH, as the chief guest. He spoke extensively about the wide range of opportunities available for production engineering students, particularly in fields like automation, AI, and smart manufacturing. He emphasized the importance of internships and practical exposure, encouraging students to actively seek hands-on experience in the industry. Mr. Kishore shared his own professional journey, working with global companies like Alstom and SIEMENS, providing valuable insights into how students can apply their skills in real-world engineering challenges.

During his talk, Mr. Kishore also presented a series of videos showcasing technological advancements in rail systems, giving the audience a deeper understanding of modern train design and engineering processes.. The session was both informative and inspiring, leaving students motivated to explore new avenues in production engineering

KEYS POINTS OF THE LECTURE
<ol style="list-style-type: none">1. Opportunities in Production Engineering2. Importance of Internships and Practical Exposure3. Technological Advancements in Rail System4. Career Guidance and Advice during Q&A
